

Moe Brings You the All Nighter Stoves

From the Efficiency Stove People

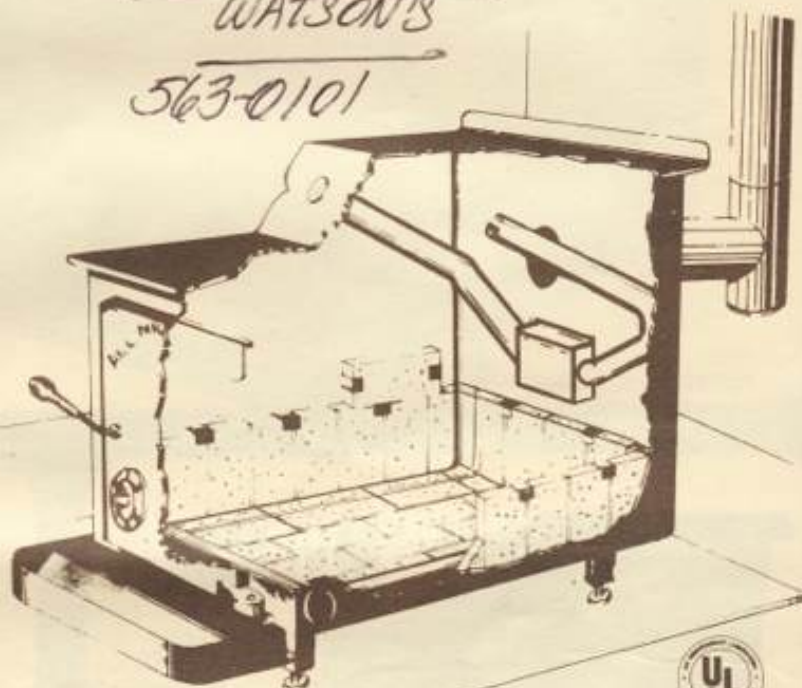

Controlled Burning Efficiency Stove

Big Moe

Featuring our exclusive patented Hot Air Distribution System that increases heat output without increasing the amount of fuel used!

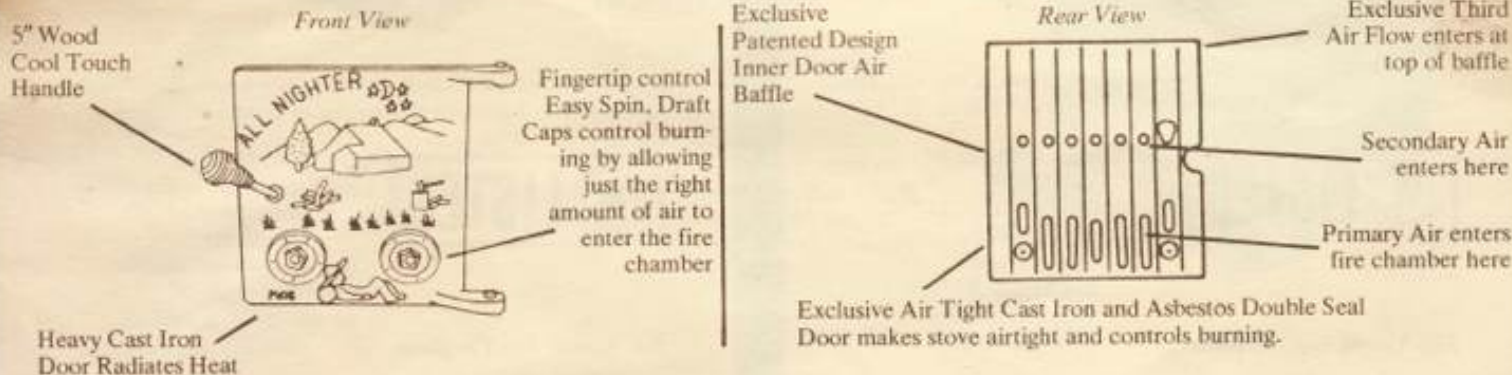

The All Nighter Stoves were designed and built by people who have been in the stove business for many years. During this time, we have had the opportunity to talk to thousands of new stove buyers. We have taken the features most requested by these new stove buyers and combined them into one stove that can fill the needs of just about everyone. Then, to make our stove even better, we designed all these features around a single idea. Simply stated, *Everything* we put into our stove has to make it get *More Heat* out of the burned wood!

Overall Width 19 1/2"
Weight 332 lbs.
Top of Flue 24 1/2"
Log Length 18"
Legs Adjustable to other flue heights

Fits Almost Any Fireplace

Giant Moe

FIREPLACE MODEL

Here's another ALL NIGHTER stove everyone's been waiting for. The GIANT MOE combines the efficiency of an airtight woodstove with the warmth and charm of a fireplace. The special heat resistant glass in the extra large door lets you enjoy the flicker of every flame. The soft glow brightens your room and your mood.

But don't let its looks fool you! The GIANT MOE has been specially designed to efficiently heat your home as well as any woodstove. Its heavy cast iron door has fingertip control draft caps to allow you to control the burning process by allowing just the right amount of air to enter the fire chamber. It's fully firebrick lined, but best of all, the folks at ALL NIGHTER have built in the same exclusive, patented Hot Air Distribution System that you find in their regular ALL NIGHTER Stoves. This system is sealed off from the heat chamber. The optional blower unit picks up cold air from the room floor, circulates it thru the inner tubes, where it is heated and blows it out thru the top, where directional louvers adjust the air flow to your needs.

The GIANT MOE has a productive burn time of 6 to 8 hours on a single load of fuel. It will heat up to 2,400 sq. ft. of room space.

Its dimensions are:
Overall Length 31"
Overall Width 31"
Overall Height 31"
Total Weight 470 lbs.
Flue Size 8"
The Firebox will take a 24" log.

Jumbo Moe

Solid Door Model with Triple Air Flow System

The Jumbo Moe has the same dimensions as the Giant Moe except that it features a solid cast iron door with our famous patented Triple Air System for more efficient controlled burning. It weighs 500 lbs. and heats up to 2,400 sq. ft. of room space.

OPTIONAL POWER BLOWER

Attaches to stove's built-in air convector system and power blows air for more heat output.

Here's What You Get

We Believe More Value For Your Money than any other Stove!

QUALITY CONSTRUCTION

LARGE HEAVY CAST IRON DOOR

- Unique Double Seal Door
- Stove will not Back-Puff when loading fuel
- Some models can burn coal when used with All Nighter coal grate

LIMITED WARRANTY CERTIFICATE FOR THE ALL NIGHTER STOVE

The undersigned warrants to the ORIGINAL CONSUMER PURCHASER for residential use ONLY that:

The All Nighter all welded steel firebox and cast iron doors will be free of defects in material and workmanship for a period of five (5) years from date of purchase.

Components of the stove, all items other than the all welded steel firebox and cast iron doors, are only warranted for a period of one (1) year from the date of purchase against defects in material and workmanship; HOWEVER, firebrick, glass and paint are specifically EXCLUDED from this Warranty.

The foregoing Warranty shall be valid only if the stove is properly installed and is subjected to ordinary use as a wood burning stove.

If such stove is found to contain the aforescribed defects within the warranty periods stated above, the undersigned shall at its option, either repair or replace the firebox or any components without charge.

Written notice of any such defect occurring within the warranty period must be mailed by certified United States mail to the undersigned immediately on the discovery of the defect, together with a copy of this certificate, upon which the Original Consumer Purchaser will indicate the date purchased, serial number, and name and address of the Dealer. The undersigned will take remedial actions as provided above, within sixty (60) days after the defect is substantiated.

This Warranty specifically EXCLUDES any incidental or consequential damages resulting from the purchase or use of an All Nighter Stove.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This Warranty gives you specific legal rights, and you may also have other legal rights which vary from state to state.
